

# Python Exercise 3 - Descriptive Statistics

1. Based on our average survey goals from Corporate, where do we seem to be failing the most?

Survey Goals				
Convenience	Wait	Value	Quality	Grade
6	12	18	24	60

2. Apply the same summary statistics to all process times. Where do we seem to spend a majority of our sandwich making process?
  - Cycle Times: “Bread\_CT”, “Cheese\_CT”, ... , “Payment\_CT”, & “Cycle”
